

‘Remote Sensing and Modeling of Surface Properties’

A workshop held in Paris Observatory in June 2006

An activity of the ITOVS working group on surfaces.

- Overview of the workshop and presentations available through:

<http://cimss.ssec.wisc.edu/itwg/groups/rtwg/meetings/sfcem/>

- Archival and documentation of all existing land surface emissivity data bases from IR and microwave wavelengths at a centralized website for public access

<http://www.metoffice.gov.uk/research/interproj/nwpsaf/rtm/emissivity/index.htm>

- IEEE TGRS special issue in February (vol. 46, no 2)
